

KLOVE serves me daily as a resident of the community. It plays in two areas of our home 24 hours a day so we are listening nonstop. It is an enriching opportunity for my daughter and I to sing together and worship together. She loves it and it is her favorite station.

I can not imagine if KLOVE were displaced. It is the only radio station that we listen to. We would have no other options for this type of programming in our area. I recommend KLOVE to all of my friends and so many of my friends listen to it. It is a great form of ministry. It provides an alternative that allows people to have a positive influence from a station - 100% of the time.

Thank you for your consideration.
